DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1- 16, 21-23 are drawn to a training aid having a first and second sheet, classified in class 473, subclass 237.
- II Claims 17-20, and 24 are drawn to a method of using a training aid, classified in class 473, subclass 219.

Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the apparatus could be used as a target for the hitting instrument.

Note: that if applicant elects the product and the product is subsequently held allowable, then the method will be rejoined if the same structure that is allowed is added to the method claim.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to applicant's attorney M. Kerr on June 2, 2005 to request an election to the above restriction requirement with a voice mail message to respond if applicant wished to discuss the restriction.

Applicant's representative has chosen not to elect at this time which resulted in the mailing of this Office action.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mike Chambers whose telephone number is (571) 272-4407. The examiner can normally be reached on Mon-Fri 8:30-5:00.
